-----

NLR develops and evaluates microgrid controls at multiple time scales. Our researchers evaluate in-house-developed controls and partner-developed microgrid components using software ...

AC microgrids have been the predominant and widely adopted architecture among the other options in real-world applications. However, synchronizing with the host grid while maintaining ...

The primary resilience benefit of microgrids is their ability to disconnect from the main grid when there is an outage and operate autonomously. Thus, facilities connected to and powered by the microgrid ...
