FlexBase Group will start construction on a data centre plus 800MW/1,600MWh flow battery in Switzerland imminently, the firm claimed.

Leaders from FBE and the private equity-backed FlexBase Group met in Laufenburg, Switzerland to mark the launch. The flow battery system, on a 20,000 m² site, will be able to store ...

FlexBase Group, a Swiss IT, communication, and energy consultancy, has partnered with local construction firm Erne to build an over 500 MW redox flow battery storage system ...

The "world's largest and most modern redox flow battery storage system" will be built on a 20,000m² footprint with a power output of 800MW and an energy storage capacity of more than 1,600MWh, the ...

Flexbase Group has broken ground on an 800 MW/1.6 GWh redox flow battery project in Laufenburg, Switzerland, in what could become one of Europe's largest flow storage systems. The ...

Construction work for the world's largest flow battery started this month at the strategic critical electrical grid interconnection point on the borders of Germany, France, and Switzerland.

Flexbase Group has begun construction on what could become one of Europe's largest flow battery storage installations, breaking ground on an 800 MW/1.6 GWh redox flow system in ...

Swiss company Flexbase is planning to build a 500MW/1.2GWh flow battery on the Swiss-German border. It is claiming it will be the biggest flow battery in the world. The company is ...

At that point, the facility is expected to become not only the world's largest redox flow battery but also one of Europe's most important energy and data management hubs.
