More recent installations include a 12 MWp plant in Payyanur and innovative projects such as solar carports and floating solar panels. These efforts have enabled CIAL to generate ...

Here are the planned solar projects in the US expected to come online in the next 18 months. These projects are currently under development or construction and represent the near-term growth in ...

Join us at Solar Power World as we cover the world of solar news on technology, development and installation on a daily basis.

Our 2025 guide explains the latest advances like TOPCon, HJT, and back contact panels. Learn how each performs in efficiency, durability, and real-world applications.

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development. The list is for ...

Explore the latest milestones in U.S. utility-scale solar projects, from Texas to Colorado, showcasing mega farms driving renewable energy growth.

Explore the top US utility-scale solar projects of 2024-2025. Learn how gigawatt-scale farms and integrated battery storage are powering America's energy future.

From California to New England, construction of solar energy is picking up speed, showing promise for hitting sustainability goals. In this article, we cover the largest solar energy ...

In recent years, virtually all leading solar panel manufacturers worldwide have transitioned to producing more efficient solar panels using N-type HJT, TOPcon, or Back-contact cells. Learn ...

The recent popular photovoltaic panel project

Latest solar power news from Europe, Latin America, Sub-Saharan Africa, APAC, MENA and more. Stay updated on solar PV, solar energy, policy & projects.
