What is a container home?

Through innovative insulation techniques, latest building materials and expertise built up over years, the container home is now a beautiful, sustainable way of building your dream house. In the same way as Lego fits together, your home can be designed to your specifications with your finishes and interiors.

Why should you choose a container conversion company in South Africa?

We aim to bring creativity, functionality, and innovation to every project, ensuring that our products exceed expectations. To be the go-to container conversion company in South Africa, known for our commitment to excellence, customer satisfaction, and delivering practical, eco-friendly solutions that stand the test of time.

Who is containatech?

To be the go-to container conversion company in South Africa, known for our commitment to excellence, customer satisfaction, and delivering practical, eco-friendly solutions that stand the test of time. At Containatech, we offer full turnkey solutions, managing every aspect of your container conversion project from concept to completion.

Can shipping containers be used as a building structure?

There are many reasons to use Shipping Containers as a building structure. One reason is that you can have your home delivered to you within 30 - 45 days from ordering. If you cannot stand the thought of building rubble and a big mess in your garden from building rubble, please consider our container homes as a viable alternative.

B Containers offers affordable pricing in West Africa, providing top-quality shipping containers without compromising on durability, security, or customer satisfaction.
