Is 5G coming to Bangladesh?

Grameenphone, the number 1 network in Bangladesh, has launched 5G technology for the first time. It has been commercially launched in every divisional city of the country since September 1st and will spread to other regions very soon. Keep an eye on Grameenphone's website and Facebook page to know when 5G is coming to your area.

Can I use 5G with my existing data pack?

Yes, you can use 5G with your existing data pack, just like 4G. What are the system requirements to enable 5G service? To use 5G service, you need to have a 5G device approved by Grameenphone, a 4G SIM (physical or e-SIM) and 5G coverage.

Do I need a phone to use 5G?

Yes, to use 5G you need a 5G-enabled phone or device that is enlisted/approved on the Grameenphone network. A detailed list of handsets is provided on our website. Which handsets support 5G? My SIM is 4G-enabled. Do I need to change it to use 5G? No, you do not need to change your 4G SIM card to use 5G.

How do I enable 5G on my phone?

Go to Settings > Mobile Data (or Cellular) > Mobile Data Options > Voice & Data and select 5G Auto (recommended) or 5G On. - Go to Settings > Mobile Data > Mobile Data Options > Data Mode and select Allow More Data on 5G (for high-quality FaceTime/streaming) or Standard. How do I know if my phone supports 5G?
