-----  
Which solar generator should I buy?

If you need a larger, potentially expandable solar generator that offers a good dose of portability, it can't be beat. The Anker Power Station 767 solar generator's high capacity and fast charging make this long-lasting battery a solid everyday driver.

What makes a good solar generator?

Solar generators need to keep the power coming in and going out. The best solar generators can simultaneously charge all your intended devices via whatever plugs are necessary. Any portable power station worth your money will have a high output capacity so you can charge many devices, even if they require a lot of juice.

What are the best solar generator brands?

ALLPOWERS is another one of the best solar generator brands for those looking to save money, as its cheapest kit is priced at \$249. Our choice, the 2,000W power station is a good option for trips off-grid; it can charge 11 devices at a time and it's rated IP66, so it should survive strong water jets.

What are the best solar generator kits?

Here, we've rounded up the very best solar generator kits on the market today, including models from top brands like Anker, Bluetti and EcoFlow. Our picks all include solar panels as standard, so you start saving power right away. \*Stats and prices correct at time of publication
