Is JA Solar a good brand?

JA Solar is a Chinese brand specializing in solar panels, PV materials and energy storage systems. Their panels are relatively cheap. The prices are comparable to Trina Solar, LONGi Solar and Canadian Solar, making JA Solar panels very very affordable.

Who makes JA Solar panels?

JA Solar is one of the world's largest solar panel manufacturers, founded in 2005 in China. The company is based in Beijing. It makes photovoltaic cells, modules, batteries and other components that convert sunlight into electricity, selling them to customers globally for both residential and commercial solar projects.

How much do JA Solar panels cost?

JA Solar panels cost between \$80 - \$170, making them an affordable option considering their high output. JA Solar panels are well-reviewed, with multiple outlets and consumers highlighting their affordability and reliability.

Are JA Solar panels a good value?

At an estimated cost of \$2.94 per watt installed, JA panels come in a bit below the national average solar panel system cost of \$3.03 per watt, making them a good value. Though one of the cheapest solar panels we reviewed, JA Solar's Tier 1 status signifies the company's profitability.
