We offer pre-engineered, time-saving solutions which brace and secure non-structural equipment within a building to minimise damage from blasts, earthquakes or seismic events.

Manufacturer of Photovoltaic wires and cable that can be used in both grounded and ungrounded systems due to their tolerance and resistance.

Connect cables directly to 3/8" threaded rod in trapeze installations for seismic bracing. Use 2 EZ BN 3/8 to attach cables to FAS PCH for sway bracing. Pre-drilled tabs allow attachment directly to concrete ...

Certified by Seismic Source International and tested to ASHRAE 171-2017 standards, this hybrid system ensures reliable seismic protection with minimal ...

There are four Gripple® Seismic cable bracing kit sizes available, each with its own Load and Resistance Factor Design (LRFD), selection of cable lengths, pre ...

Wire Management Durable, weather-rated mounting hardware for secure rooftop and ground-mount solar installations. Shop rails, clamps, brackets, roof attachments, fasteners, and racking ...

UNISTRUT Seismic Bracing Solutions Unistrut is a global leader in seismic bracing solutions and is a go-to resource for Engineers, Contractors, Specifiers, and others. We have decades of experience ...

Complete guide to solar mounting accessories including clamps, wire clips and grounding lugs. China manufacturer and supplier of full PV mounting solutions.

Zip-Clip Seismic Bracing Systems offer a simple and engineered solution to brace and secure non-structural building services, improving the resilience and safety ...

Wire and cable photovoltaic earthquake-resistant bracket

The solar photovoltaic lightning protection grounding element module collects static electricity on the photovoltaic module and the mounting bracket, and leads it to the lightning protection grounding ...
